

Summary List of Courses

Note: This list was correct when collated. Students must be aware that there is no guarantee that all courses shown will be available in the spring semester.

This Summary List of Courses is designed to help Study Abroad students select courses which are available to them as part of the Study Abroad programme. Students should consult this summary list initially before using the London Met online catalogue to check which classes are available to them.

This document shows the classes currently available in each subject area.

Students should find appropriate classes within the Summary List and then consult the university online catalogue for the syllabus and timeslot of each class.

You may only take one class in each timeslot and should therefore choose classes which do not clash.

You will take four classes per semester.

The university online module catalogue is available here: <https://intranet.londonmet.ac.uk/program/module-catalogue/>

You can search using the interface below for specific modules or with more general search criteria. Don't forget to check with this Summary List that your preferred modules are available to you as a Study Abroad student.

Module code	<input type="text"/> eg: ad, ad00, ad0006

Please note:

Teaching Location; it is generally easier to choose modules at the same campus

Teaching Semester; make sure the module is taught during the semester for which you are applying

Note: it is not guaranteed that a module will be running in the current academic year. Check the timeslot to see if it is available for your semester

Timeslot; make sure you do not have two or more modules running at the same time.

Module Summary; check that the material to be covered is interesting / appropriate to you, and find information about methods of assessment and reading list.

Times

AM (morning) classes are normally taught between 9.00 am and 12:00 pm

PM (afternoon) classes are normally taught between 1:00 pm and 5.00 pm

PM+ (evening) classes are normally taught between 6:00 pm and 9:00 pm

Module Levels and Prerequisites

There are three teaching levels, Certificate, Intermediate and Honours, which broadly correspond to the first, second and third year of study.

Please note: some Intermediate and Honours level modules may only be taken if the student has already completed lower level modules on a related topic – these modules are known as prerequisites.

When a prerequisite is listed you should make sure that you have studied a corresponding course at your home campus and therefore will have enough subject knowledge to approach the new material.

Module codes

The module code consists of 3 parts: The department initials, the number code, and the **N** or **C** to indicate whether the module is being taught at **North** campus or **City** campus. For example: MK*1001*N

Where the module is highlighted in **purple** on this list and has no campus designation e.g. **AC1002 Accounting**, the module is being taught separately at **both** campuses and you can choose at which campus you would prefer to take your module – **either** North **or** City (**not both!**). When filling in your module registration form, you must indicate where you want to take your chosen module. The choice could depend on which best fits your schedule, or which campus you prefer.

Module Registration Form

You must choose four modules (a total of 12 US credits or 30 ECTS) and at least four alternative modules. Use the Module (Course) Registration form supplied and return the completed form to the International Programmes Office, Stapleton House, London Metropolitan University, 277-281 Holloway Road, London N7 8DB by the 1st December 2011. You may fax it to: +44 207 133 3376. If you are not able to complete your module registration form by this date please contact the Study Abroad Team at studyabroad@londonmet.ac.uk

Please note that **not all of the modules listed in the Online Module Catalogue will be available this semester** and your Intended Study Programme is subject to change. It is important to list approved alternatives in case of schedule changes.

Practical Social Work, Video Editing, Architecture and Aviation modules are **not open to Study Abroad students** and practical art classes are only open to full time art students unless a portfolio is submitted and approved. **Please visit our Module Registration Website for more information about these and other special or restricted courses**

http://www.londonmet.ac.uk/international/study-abroad/studyabroad/modules/modules_home.cfm

Modules with codes in this format ****X**** or ****F**** are pre-undergraduate and not available on this programme (e.g. AC1X03, or HH1F01)

Sir John Cass Department of Art, Media and Design

In order to register for art classes you must be an art major at your home University. There are a limited number of spaces in each art class and so we cannot guarantee places. You may have to supply a portfolio of work for assessment by an academic, prior to obtaining a place in the class. You should also select non-art classes as a back up, and get these signed off by your academic advisor / tutor.

DESIGN (DE)

Please note Design (DE) modules are for specialists only and have a strong studio ethos. Students interested in registering for these modules must be Design Majors and should be able to submit an electronic portfolio of their work upon request.
