Global Learning Semesters
Course Syllabus
Course: COMP-493 Final Year Project
Department: Computer Science
Host Institution: University of Nicosia, Nicosia, Cyprus

Course Summary		
Course Code	**Course Title**	**Recommended Credit Hours**
COMP-493	Final Year Project	3
Semester Offered	**Contact Hours**	**Prerequisites**
Fall, Spring		Senior Standing. Consent of Department.
Department	**Level of Course**	**Language of Instruction**
Computer Science	Upper Division	English

Course Description

Students choose a problem/topic of common interest with a department advisor, and then develop and implement a comprehensive system to address the problem. Usually the project consists of designing and implementing a substantial piece of software and writing a dissertation. Alternatively, the project may consist of conducting research and producing only a dissertation. The research may be purely academic or it may investigate various software solutions used in the industry.

Instructor

Ms Vasso Stylianou

Course Aims and Objectives

To give the student the opportunity to combine the knowledge he/she gained from a number of courses and put this in practice.

Teaching Methods

The course is completed with independent work done by the student under the guidance and supervision of a department advisor. A presentation of project work to the supervisor and at least two other Computer Science faculty is required.

Course Teaching Hours

Weekly sessions with supervisor. (14 meetings)

Evaluation and Grading

The project is assessed based on the following: Project achievement, presentation and dissertation.

Readings and Resources

Required Textbook
None

Recommended Reading
Suggested readings by the supervisor.
