Please contact us	42-45	None
Department	Level of Course	Language of Instruction
Life and Health Sciences	Upper Division	English

### Course Description

The nursing seminars are designed to facilitate students learning in an informal way. Peer teaching has been found to be a very interesting and accomplished teaching/learning method for student learning.

Students can choose a topic of their choice with the approval of their tutor or they can choose a topic from a list of current nursing topics or case studies from a list distributed in the beginning of the Semester. Students are requested to give a 20 min formal presentation to the class with 10 min discussion to follow, using presentations aids (transparencies, slides, handouts etc.). Students will be evaluated by the class as well as their instructor. There will be 12 one hour seminar sessions in total. Students are required to give a minimum of 10 seminars / semester.

### Prerequisites

None
