Course Description

This course presents an overview of environments and venues where health care is delivered, including emergence of new activities and career opportunities such as case management, data systems management, and alternative/nontraditional health care delivery. Challenges of current health care environments are identified, and will be explored in greater depth throughout the program.

Prerequisites

Junior or Senior Standing

Topic Areas

1. The Health Care System
2. Where Do We Obtain Health Care?
3. Health Care Resources
4. Health Care Services Today
5. Psychosocial impact of illness and trauma.
6. Social work practice in health care settings.
7. Role of culture, values, and life style.
